

MemeVerse Infinity Project Roadmap

Q4 2024: Project Launch

- Whitepaper Release: Publish the detailed MemeVerse Infinity whitepaper, covering the project’s vision, tokenomics, core mechanisms, and future plans.
- Community Building: Launch social media campaigns, build a community, and attract early supporters and investors.
- MVT Token Presale: Conduct an early presale of MVT tokens to raise funds for the project launch.

Q1 2025: MemeFun Platform and MVT Staking Functionality Launch

- MemeFun Platform Development and Launch: Complete the development and launch of the MemeFun platform, allowing users to create and promote meme coins with just 2,000 MVT [equivalent to 1 ALPH].
- MVT Staking Functionality Launch: Introduce the MVT staking feature, enabling users to earn rewards from MemeFun by staking MVT tokens.
- Liquidity Pool Feature Launch: Ensure all project liquidity pool tokens are permanently locked, providing additional security.

Q2 2025: FomoGame Launch

- FomoGame Development Completion and Launch: Launch FomoGame with both fast and long game modes, encouraging user participation and rewarding players within the game.
- Real-Time Dividend Mechanism Launch: Implement the real-time dividend mechanism, incentivizing players to hold and purchase Keys to participate in the game.
- FomoGame Staking Rewards: Enable users to earn ALPH rewards by staking MVT tokens and enjoy discounts when purchasing Keys in FomoGame.

Q3 2025: MemeBot Initial Version Launch

- MemeBot Launch: Release the initial version of MemeBot, supporting token trading and FomoGame participation, simplifying user operations.
- Community Feedback Collection: Gather user feedback to optimize MemeBot features and enhance the user experience.

Q4 2025: Expansion and Optimization

- Development and Launch of Additional Game Features: Introduce new games such as NFT-PVP GAME and Blackjack [21], and other interactive features based on community demand, further enriching the user experience.
- MemeBot Feature Expansion: Add advanced features to MemeBot, such as automated trading and market analysis, enhancing the user's trading experience.
- AI NFT Generation System: Launch an AI-powered NFT generation system.

Q1 2026: Global Market Promotion

- Secondary Exchange Listing [May Happen Earlier]: List MVT on secondary exchanges to increase accessibility and liquidity.
- Global Market Promotion: Promote MemeVerse Infinity globally, attracting more users and developers to join the ecosystem.
- Partnership Expansion: Establish partnerships with other blockchain projects and companies to expand the application scenarios and influence of the ecosystem.

Future Plans

- Cross-Chain Integration: Explore extending the MemeVerse Infinity ecosystem to other blockchain platforms, enabling cross-chain interactions and transactions.
- Further Community Development: Strengthen community cohesion through online and offline events, and attract more developers and users to join.
